## **DETAILED ACTION**

### ***EXAMINER'S AMENDMENT***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Joseph P. Carrier on April 30, 2004.

The application has been amended as follows:

**Claims 11-15 have been canceled.**

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: Applicants remarks of February 27, 2004 are persuasive and the 103 rejections have been withdrawn. The prior art reveals that the substantially rhombic shaped coil segments formed to a hollow shape for use as a stator winding in a slotless stator has been well established. The addition of bent back end portions disposed outside the rhombic shape and bent to an inner peripheral side of the hollow cylindrical body is neither found nor fairly suggested in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
